

First Announcement

**Waste Management
Conference and Exhibition, 2010**
"1 Green Malaysia"

19 – 20 May, 2010
Sime Darby Convention Centre
Jalan Kiara, Kuala Lumpur, Malaysia

ORGANISED BY,

Environmental Management and Research
Association of Malaysia

BACKGROUND

To achieve its mission, the conference will focus on:

- sewage
- solid waste
- schedule waste

(Papers will focus on Socio Economic aspects of the subject including effects of Climate Change)

Programme Objectives

- To promote "One Green Malaysia" concept
- To improve our national sustainability agenda
- To present to the various stakeholders the latest updates on waste management with emphasis on the socio - economic aspects including impacts of waste management on climate change
- To gather the stakeholders' views on key waste management issues for the submission of recommendations to pertinent government agencies and other relevant organisations.

Target Audience

The Conference is being organised as a forum to inform, present and gather feedback from all interested stakeholders who are concerned about the current waste management system in Malaysia. Those involved management of wastes, would find this a very useful opportunity to offer their feedback to the relevant government agencies and other organisations.

WM 2010 would benefit participants particularly from

- Industry and industry groups in the manufacturing and service sectors
- ETP Contractors
- Civil Societies
- Recycling companies
- Government Agencies
- Waste Management Concessionaires
- Research and Development Institutions
- Academia
- Consultants
- NGOs
- And all interested individuals

The First Waste Management Conference organised by ENSEARCH in 2001 generated keen interest and support from all pertinent stakeholders. Consequently ENSEARCH organised a seminar, conference and workshop on this theme in 2002, 2004 and 2005 respectively. This was followed by a Waste Management Conference and Exhibition in 2007 & 2008 under the same theme. The continued interest in waste management by the stakeholders, many of whom are urging for the streamlining of the current regulatory framework or waste management to support our sustainability agenda, has prompted ENSEARCH to organise this Waste Management Conference and Exhibition 2010 (WM2010) together with the Ministry of Housing and Local Government Malaysia as co-organisers. WM 2007 will be held as a Conference in conjunction with an Exhibition of more than 20 booths to display appropriate services and technologies related to sustainable waste management. The conference is endorsed by the Ministry of Housing and Local Government Malaysia and Ministry of Natural Resources and Environment Malaysia and the Ministry of Natural Resources and Environment as endorsers.

ABOUT ENSEARCH

ENSEARCH is a non-profit association of organisations, professionals, students and people with interest in learning and promoting effective ways to manage the impacts of human activities on the environment. We believe that everyone is responsible for managing and mitigating the impacts of their corporate, professional and daily living activities on the environment. Motto of ENSEARCH is "ENSEARCH for a Better Environment."

OUR VISION

"Malaysians are environmentally aware and are committed to take personal responsibility to manage and mitigate the impacts of their corporate, professional and daily living activities on the environment."

OUR MISSION

"To promote excellence in environmental management among organisations, professionals and interested persons."
