

**KKEF YOUNG ENVIRONMENTALIST INTERNSHIP AWARD RECIPIENT  
2016**

**INTERNSHIP TO: E5 CAMPUS, HONG KONG**

**MS CHIA WEN SHIN**

Ms Chia Wen Shin, a 26 years old passionate social entrepreneur, holds a Bachelor of Environmental Science and Technology from Universiti Putra Malaysia. She has taken subject such as solid waste management, waste water treatment, principle of environmental health and much more. She joined Nufarm Malaysia Sdn Bhd which she entrusted with product registration and development programme. She also responsible in regulatory and product launching activities. In the year of 2013, she had established a business entity “Green Yards” ([www.greenyards.com.my](http://www.greenyards.com.my)) which aim to provide an alternative option or solution to the local community for disposing of Used Cooking Oil and subsequently then reprocess into eco-soap and candles. She collects the disposed cooking oil and in a physical store. Ms Chia is just one of the growing numbers of young Malaysian women making their mark in the social enterprise sector.

Her passion is to change the perspective of waste management towards the public. Waste management is an industry with huge potential as the population growth and rapid urbanization in various parts of the whole. The higher the income level and rate of urbanization, the greater the amount of waste produced. To influence people on the surroundings, she takes actions to be a role model first.
